

BURTON GREEN PARISH COUNCIL FINANCIAL RESERVES POLICY

Burton Green Parish Council is required to maintain adequate financial reserves to meet the needs of the Council¹. This policy sets out how the Council determines and reviews the level of its financial reserves.

The Council holds reserves for three main purposes:

- A working balance to finance its day to day operations
- A contingency to cushion the impact of unexpected events or emergencies
- A means of building up funds to meet known or predicted requirements

The level and classification of financial reserves held by the Council is reviewed on an annual basis during the annual budgetary review.

RESERVES

Reserves are categorised as General or Earmarked; the Council's earmarked reserves are ring fenced.

1. General Reserves

General Reserves are funds which do not have any restrictions as to their use. These reserves can be used to smooth the impact of uneven cash flows or can be held in case of unexpected events or emergencies.

The level of General Reserves should range between 75-100% of the Council's average annual general expenditure². The Council will build and maintain sufficient working balances to cover the key risks it faces as expressed in its financial risk assessment.

2. Earmarked Reserves

Earmarked Reserves are established on a "needs" basis, in line with anticipated requirements - expenditure from earmarked reserves can only be authorised by the Council. There is no upper or lower limit to Earmarked Reserves save only that they must be held for genuine and intended purposes.³

The primary means of building Earmarked Reserves is through an allocation from the annual budget. This may be in addition to any amounts needed to replenish reserves that have been consumed in the previous year.

Earmarked Reserves are not held to fund on-going expenditure; if reserves are used to meet short term funding gaps then the Council will endeavour to replenish them in the following financial year.

Earmarked Reserves that have been used for a specific project will not need to be replenished, having served the purpose for which they were originally established.
